While modern books are born digital, books old enough to be in the public domain may never have seen a computer. Google has been scanning books from public libraries and other sources for several years. That means you've got access to an entire library of classic literature that you can read on the computer or on a variety of

Sciences: In this lesson  
on Forces we define  
the concept of a force.  
We represent forces  
using vector diagrams.  
We solve problems  
when two or more  
forces acting on an
