Fast food is a type of mass-produced food designed for commercial resale, with a strong priority placed on speed of service. It is a commercial term, limited to food sold in a restaurant or store with frozen, preheated or precooked ingredients and served in packaging for take-out/take-away. Fast food was created as a commercial strategy to accommodate large numbers of busy commuters, travelers ...

Fast food - Wikipedia

Baby can chew, suck and taste the whole food goodness, with only small, digestible pieces coming through - reducing the risk of choking. It's also a smart alternative to a teething toy. The Fresh Food Feeder features a colorful, easy-grip handle for your little one to hold - making this his first real step toward feeding independence.
