Reduction mammoplasty (also breast reduction and reduction mammoplasty) is the plastic surgery procedure for reducing the size of large breasts. In a breast reduction surgery for re-establishing a functional bust that is proportionate to the woman's body, the critical corrective consideration is the tissue viability of the nipple-areola complex (NAC), to ensure the functional sensitivity and ...

Breast reduction - Wikipedia

A facelift, technically known as a rhytidectomy (from the Ancient Greek ῥυτίς (rhytis) "wrinkle", and ἐκτομή (ektome) "excision", the surgical removal of wrinkles), is a type of cosmetic surgery procedure used to give a more youthful facial appearance. There are multiple surgical techniques and exercise routines. Surgery usually involves the removal of excess facial skin, with or ...

Rhytidectomy - Wikipedia

The approach to nasal coverage can be further categorized by the nasal subunits and subunit principle of reconstruction. Simply stated, there are nine nasal subunits based upon transitions in shadow between natural convexities and concavities where scars are most inconspicuous (Fig. 2).Furthermore, if a significant portion of any given subunit is missing (e.g., > 50%) then completing excision ...

II. By Their Consequences Ye Shall Know Them. Science and technology are tied together in two ways. First of all, technology is a creature of science because it is . nourished by scientific knowledge, and the "higher" the technology becomes the more truly a creature of science it becomes. Second, science in its turn relies a great deal on technology for its apparatus, its research tools.
