Optima Yellow Top Battery D35 Review & Install | Fitted in VA Subaru WRX STI

Optima batteries work a lot like regular batteries with some added features. A dark-cased RedTop or BlueTop Optima is a starting battery. Starting batteries are designed to be discharged a little, then be charged up fairly quickly by your charging system.

How To Tell If Your Optima Battery Is Bad - Roundforge

As we said above, aftermarket battery trays from performance companies tend to produce battery trays that'll fit these batteries. If you go with a different Optima model and want to use it with an aftermarket battery tray, be careful! Some Optimas, like the 34R have feet that will prevent you from using some trays. The tricky part is that the outer case is the same size as a normal 34 - it's just the feet that stick out !
