The relative number (expressed in percentages) of papers accepted or rejected after submission (N_a / N and N_r / N) on a specific day of the week is shown in Table 1 and, for having a good visual inspection, in Fig. 2. It appears that, in contrast to the (more often occurring) submission day (Wednesday, day 3),—the next one being Tuesday, the papers are more often accepted when (or if ...

Day of the week effect in paper submission/acceptance/rejection to/in ...

not differ in emotional expression during the week before the experiment (all $t < 1.5$; all $P > 0.13$), we examined overall posting rate via a Poisson regression, using the percent of posts omitted as a regression weight. Omitting emotional content reduced the amount of words the person subsequently produced, both when

Experimental evidence of massive-scale emotional contagion through ...

Deep Neural Networks (DNNs) are powerful models that have achieved excellent performance on difficult learning tasks. Although DNNs work well whenever large labeled training sets are available, they cannot be used to map sequences to sequences. In this paper, we present a general end-to-end approach to sequence learning that makes minimal assumptions on the sequence structure. Our method uses ...

Predicting depth is an essential component in understanding the 3D geometry of a scene. While for stereo images local correspondence suffices for estimation, finding depth relations from a single image is less straightforward, requiring integration of both global and local information from various cues. Moreover, the task is inherently ambiguous, with a large source of uncertainty coming from ...

We show, via a massive ($N = 699,003$) experiment on Facebook, that emotional states can be transferred to others via emotional contagion, leading people to experience the same emotions without their awareness. We provide experimental evidence that emotional contagion occurs without direct interaction between people (exposure to a friend expressing an emotion is sufficient), and in the complete ...
