I. Introduction. During the last two to three decades policy-makers have increasingly become concerned about the role of innovation in economic performance and the solution of challenges that arise. 1 The view that policy may have a say in innovation has become widespread, and the term innovation policy has become commonly used. This paper attempts to take stock of this rapidly growing area of ...

However, the federal government cannot appropriate the entire U.S. economy to pay its debts. This is because private citizens—who produce the goods and services that comprise the bulk of the economy—use most of these resources to live. Also, state and local governments consume some of the nation's GDP. Hence, this research sometimes expresses federal debt as a portion of annual federal ...
