from a lack of formal and systematic analysis of the extant literature. This lack of analysis often results in what Boote and Beile (2005) refer to as literature reviews that represent “mere disjointed summaries of a haphazard collection of literature” (p. 9). According to Schwandt (2007), “To analyze means to break down a whole into its

Writing about literature . 1. Whether you are dealing with fiction, poetry, or nonfiction literature, use the present tense (also called the literary present tense) to discuss the actions and thoughts presented in the text. Do this because literature exists as a present phenomenon regardless of whether or not its author is alive.
